

Child & Family Associates of Greater Washington, LLC (CFA) is a thriving, innovative and collaborative fee-for-service group practice located in Falls Church, VA. CFA clinicians offer a range of services, including child, adolescent and adult individual, family, and group psychotherapy; psychological and psychoeducational testing; parenting skills training; and school intervention services.

CFA is seeking highly skilled, direct and caring licensed mental health clinicians (PsyD/PhD/LCSW/LPC/LMFT) to join our team in Falls Church. We truly work as a collaborative team at CFA: we meet weekly to share resources and ideas, and have rewarding and meaningful connections with our referral sources and others in the community. Most importantly, we enjoy working with each other and value the 'professional family' that we've developed. Many of our clients comment on the feel of CFA as a warm, inviting practice.

We are looking for candidates who are skill-building and strengths-based, and who also value teamwork and establishing a rewarding connection with clients. Clinicians who are doctoral-level psychologists and/or independently licensed; have couples and family therapy experience; demonstrated psychological evaluation skills, and Cognitive Behavioral/Integrative therapy skills are highly preferred. Residents in psychology who are license eligible in Virginia may also be considered.

This is an employment opportunity, which offers many benefits including quarterly bonus, matching retirement plan, CEU and licensing fee reimbursement, as well as excellent hourly compensation to name a few. Candidates who are motivated, have excellent people skills, and are interested in part-time and full-time work in a fun and collegial environment are encouraged to apply. Clinicians at CFA will tell you that they had no trouble reaching their desired caseload within the first month of their hire.

Please ask any interested candidates to email a 1) a letter of interest and 2) a Curriculum Vitae to Steve Harner, Psy.D., at sharner@cfa-gw.com.

Please feel free to send this job notice to others in your networks who might be interested!
